Job Description

Software Developer Trainee (CRM/ERP)

We are looking for talented Fresher / Entry Level candidates who are interested in starting their career in Zoho, Salesforce and other CRM as a developer and who want to help our 100+ customers around the world use 10XBiZ services to transform their business with CRM and business process automation technologies.

10XBiZ not only provides you with the rewarding career development you are seeking, but also with unmatched benefits that help you get the most out of your career and your life. This position is a full-time position based out of **our Hyderabad office**. We are presently a small team looking for an ambitious, talented, self-starter who is passionate about working on the award-winning CRM platforms.

Key Responsibilities:

- Responsible for developing, implementing, maintain custom CRM and other business applications (on Zoho Platform) —including coding, agile team principles
- Working and build strong relationship with Solution Architects and Platform Architects to fit in 10XBiz standards and guidelines to champion best practices and guide and influence team on leveraging such practices.
- Taking impactful features from idea to implementation
- Elegantly bring designs to life using standards-compliant dynamic HTML, CSS, and Javascript.
- Brainstorm and prototype new concepts and approaches fast, turning prototypes into real things.
- Work with product manager to meet the demands of our customers, while at the same time continuing to innovate far beyond the competition.
- Build strong relationships across the business, that may be leveraged to produce better products and solutions. Be a team player in a highly collaborative environment.

What you need to be Successful

- Highly motivated, creative, self-directed, and thrives in fast-paced, dynamic environment
- Good oral and written communication skills
- Team player and be able to interact with other team members to deliver fast with quality
- Curiosity to expand your skills

Requirements

Required Skills

- Good programming and analytical skills.
- Experiences with any of the following JavaScript frameworks/libraries: React, jQuery, Angular or similar would be a plus.
- Understand web standards & technologies (ex. HTTP, REST and JSON).
- Bachelor's degree, preferably Computer Science, IT and Electronics.
- Knowledge of Agile/Scrum methodology.

Preferred Skills/Experience

- Experience of working with any CRM platform would be an advantage.
- Able to design and write well-structured, easily maintainable, well-documented code that balances beauty and pragmatism.
- Knowledge of Object Oriented (OO) design patterns.
- Knowledge working at-scale by reusing components and code to push apps out fast
- Passionate about web development and up to date with the latest developments in your field.

Benefits

Perks:

1. Internship Certificate.
2. Recommendation Letter.
3. Great learning potential as the job will involve extensive on project experience on various CRM products such as ZohoCRM, Salesforce.com, Web technologies etc.
4. Stipend of 8,000/- to 12,000/- a Month during training/internship period of 6 months.
5. **Job offer** (On successful conversion to a permanent employee, the candidate can expect a salary of Rs. 2.5 to 3.6 Lac/annum).
