

1)New Associate-Digital Marketing

OFFICE: Accenture - Hyderabad, Telangana

FOR APPLY: https://www.accenture.com/in-en/careers/jobdetails?id=84360_india_2&title=New+Associate-Digital+Marketing

Job Description

Skill required: Digital Marketing - English

Designation: Management Level - New Associate

Job Location: Hyderabad

Qualifications: Any Graduation

Years of Experience: 0-1 years

About Accenture Operations

In today's business environment, growth isn't just about building value- it's fundamental to long-term business survival. So how do organizations sustain themselves? The key is a new operating model-one that's anchored around the customer and propelled by intelligence to deliver exceptional experiences across the enterprise at speed and at scale. You will deliver breakthrough business outcomes for clients-by harnessing talent, data and intelligence to revolutionize their operating models. Operations is one of four services that make up one Accenture - the others are Strategy and Consulting, Interactive and Technology. Visit us at www.accenture.com

What would you do?

The Software and Platform vertical helps the world's leading platform companies accelerate, scale and improve their businesses as their most trusted, innovative, comprehensive and experienced partner. You will be working as a part of the Digital Marketing team to understand and help clients market their products or services using digital technologies, mainly on the internet, but also including mobile phone apps, display advertising, e-commerce/online shopping website, and any other digital medium. The team also leverages popular tools such as

Adobe Creative Suite, Workfront Work Management Software, HTML, Javascript, Atlassian Jira, etc.

You will be responsible for English content where in you will be reviewing photos, videos, and text-based content and make judgments as to whether reviewed content is in violation of our client's terms of services. The contents may cover nudity, hate speech, bullying, self-harm, gore and harassment. You will ensure every piece of content in violation of client's terms of services is accurately identified and flagged for action in a timely manner.

What are we looking for?

We are looking for individuals who have the following skillset:

- Adaptable and flexible
- Agility for quick learning
- Ability to work well in a team

It would be a value add if you are proficient in:

- Digital Marketing

Roles and Responsibilities

- In this role, you are required to solve routine problems, largely through precedent and referral to general guidelines
- Your primary interaction is within your team and your direct supervisor
- You will be given detailed instructions on all tasks that need to be carried out, and the decisions that you make will impact your work
- You will need to be well versed with basic statistics and terms involved in the day to day business and use it while discussing with stakeholders
- You will be working closely with project members to effectively deliver on the requirements
- You will be an individual contributor as a part of a team with a predetermined focused scope of work.

Please note this role may require you to work in rotational shifts.

Qualifications

Any Graduation

5)Web Development Internship

OFFICE: SmallBzr - Bengaluru, Karnataka

FOR APPLY: <https://internshala.com/internship/detail/web-development-internship-in-bangalore-at-smallbzr1613113843>

₹5,000 - ₹10,000 a month

About the company:

Small businesses are the lifeblood of national economies and social development, and a vital engine for innovations, employment, and job creation globally. But across nations, we are far off from being able to create solid support systems to foster micro-entrepreneurship, entrepreneurial innovations, and small business sustenance, at scale, to fuel inclusive growth. Small businesses face all sorts of challenges. Most significantly, the scarcity of resources, multi-disciplinary skills, skilled staff, and funds. We have lived, for years, the life and struggles of a small business owner trying to bootstrap startups and eventually chose this cause as our first and foremost mission, than what we set out to do at the beginning. We have chosen to commit ourselves to make a difference in the life of a small business owner and be a reason for them to running the small business well.

About the internship/job:

Selected intern's day-to-day responsibilities include: 1. Building dynamic web modules on top of the company's product suite 2. Understanding business use cases and working end-to-end to give the project life 3. Working on web application development following TDD

7) PHP Web Developer

OFFICE: Kalai infologic pvt ltd - Hyderabad, Telangana

₹11,064 - ₹49,640 a month - Full-time, Fresher, Walk-In - Temporarily remote

Job Description

We are looking for a PHP Developer responsible for managing back-end services and the interchange of data between the server and the users. Your primary focus will be the development of all server-side logic, definition and maintenance of the central database, and ensuring high performance and responsiveness to requests from the front-end. You will also be responsible for integrating the front-end elements built by your co-workers into the application. Therefore, a basic understanding of front-end technologies is necessary as well.

Responsibilities

- Integration of user-facing elements developed by front-end developers
- Build efficient, testable, and reusable PHP modules
- Solve complex performance problems and architectural challenges

- Integration of data storage solutions {{may include databases, key-value stores, blob stores, etc.}}
- {{Add other responsibilities here that are relevant}}

Skills And Qualifications

- Strong knowledge of PHP web frameworks {{such as Laravel, Yii, etc depending on your technology stack}}
- Understanding the fully synchronous behavior of PHP
- Understanding of MVC design patterns
- Basic understanding of front-end technologies, such as JavaScript, HTML5, and CSS3
- Knowledge of object oriented PHP programming
- Understanding accessibility and security compliance

- Strong knowledge of the common PHP or web server exploits and their solutions
- Understanding fundamental design principles behind a scalable application
- User authentication and authorization between multiple systems, servers, and environments
- Integration of multiple data sources and databases into one system
- Familiarity with limitations of PHP as a platform and its workarounds
