

1) Web Development (Front-end) Internship

OFFICE: QuantaVid - Hyderabad, Telangana

₹10,000 - ₹12,000 a month

FOR APPLY: <https://internshala.com/internship/detail/web-development-front-end-internship-in-hyderabad-at-quantavid1614141350>

About the company:

QuantaVid LLC is a SaaS company based in Michigan, United States of America. It is an artificial intelligence (AI)-powered video generating platform designed to automatically generate high-quality personalized and promotional videos for brands, digital publishers, and businesses. The data-driven dynamic video content can be used for marketing and ad campaigns, sales promotion, and much more. Our AI aims to enable content creation for everyone in minutes, thus taking the pain out of the entire video generation process. This platform doesn't require any video editing skills as AI takes care of it. Meanwhile, the platform offers additional video editing tools if the user wants to edit it further. Along with video creation, our users gain access to millions of high-quality photos, videos, and soundtracks through in-built media libraries.

About the internship/job:

Selected intern's day to day responsibilities include: 1. Developing and designing front end web architecture 2. Designing client-side architecture and API integration 3. Ensuring the responsiveness of applications and working alongside graphic designers for web-design features, among other duties
