3) PHP Developer

OFFICE: DOTLINE WEB MEDIA PVT LTD - Bengaluru, Karnataka

₹12,000 - ₹15,000 a month - Full-time, Fresher

A PHP developer is responsible for writing server-side web application logic. PHP developers usually develop back-end components, connect the application with the other (often third-party) web services, and support the front-end developers by integrating their work with the application. They are also often required to develop and integrate plugins for certain popular frameworks.

Writing a good job description and advertisement for a PHP developer requires attention to detail. When you are looking for an advanced PHP web developer, posting a generic web developer description in your job ad will bring numerous applications from people who may have little knowledge about good programming practices.

Responsibilities

- Integration of user-facing elements developed by front-end developers
- Build efficient, testable, and reusable PHP modules
- Solve complex performance problems and architectural challenges
- Integration of data storage solutions {{may include databases, key-value stores, blob stores, etc.}}
- {{Add other responsibilities here that are relevant}}

Skills And Qualifications

- Strong knowledge of PHP web frameworks {{such as Laravel, Yii, etc depending on your technology stack}}
- Understanding the fully synchronous behavior of PHP
- Understanding of MVC design patterns
- Basic understanding of front-end technologies, such as JavaScript, HTML5, and CSS3
- Knowledge of object oriented PHP programming
- Understanding accessibility and security compliance {{Depending on the specific project}}
- Strong knowledge of the common PHP or web server exploits and their solutions
- Understanding fundamental design principles behind a scalable application
- User authentication and authorization between multiple systems, servers, and environments
- Integration of multiple data sources and databases into one system
- Familiarity with limitations of PHP as a platform and its workarounds
- Creating database schemas that represent and support business processes
- Familiarity with SQL/NoSQL databases and their declarative query languages
- Proficient understanding of code versioning tools, such as Git

- software development: 1 year (Preferred)
- total work: 1 year (Preferred)

Education:

- Bachelor's (Preferred)

Work Remotely:

- No

4) Web Development (Internship and Full-time)

OFFICE: Aganitha Cognitive Solutions Pvt Ltd - Hyderabad, Telangana

₹12,000 - ₹25,000 a month - Full-time, Internship - Temporarily remote

Aganitha accelerates drug discovery and development by applying the power of Genomics, AI, Cloud, and DevOps.

Discovery and development of drugs today are dramatically different from even a decade ago. Fundamental as well as translational research in biopharma are being transformed by rapid progress in informatics, AI and machine learning. At Aganitha, we are partnering with global biopharma companies to complement the traditional lab-based approaches with in-silico approaches to research and development.

We develop and deploy AI, data, and cloud-powered solutions that efficiently tackle the complexity, scale, and richness of modern biopharma R&D domains. We adopt multi-disciplinary approaches, blending and translating the latest knowledge in biology, chemistry, computing, and biopharma business.

We are looking for talented and experienced web application developers. Those without prior experience may also apply to join as an intern first and then graduate into a full time role. Compensation advertised is for internship only; salary and benefits for full-time role will be based on relevant prior experience.

In this role, your day-to-day responsibilities include:

1. Use case analysis, user analysis, user story development, web design, wire-framing
2. Work on UX to UI design, asset development for web UIs, SCSS/CSS/JS development
3. Work on React-based web application development, GraphQL, visualization with frameworks such as D3.js

To apply and qualify, you will need to complete the following process:

1. All candidates (fresher's as well as experienced) must attempt Part 1 of the screening quiz, available at https://forms.gle/DADKGe6CrWJTGxkv7. Part 1 only includes multiple-choice and short answer questions and will not require more than 30 minutes of your time.

2. Upon clearing Part 1, you will receive Part 2 of the quiz which includes modeling and coding exercises.

3. Those qualifying in Parts 1 and 2 will be scheduled for on-line interviews.

Job Types: Full-time, Internship

Salary: ₹12,000.00 - ₹25,000.00 per month

Schedule:

- Day shift
